Data#3 Announces World Vision as the First Charity in its 12 Days of Christmas Program

December 1, 2011; Brisbane, Australia: Australia's leading Information and Communications Technology Company Data#3 today launched its 12 Days of Christmas program designed to support charities and community groups across Australia.

12 Days of Christmas, is Data#3's annual charity giving program. Now in its third year, the program runs across the first twelve working days in December. Each day one of the twelve different charitable organisations is announced to the business and will be supported by pledged donations and fundraising activities.

Data#3 Managing Director, John Grant said that the continued success of the program over the past two years has highlighted the importance for Australian businesses to have an ongoing commitment to give back to the wider community, particularly during the Christmas season.

"We will showcase twelve charities that all have a special meaning to the Data#3 team and will be supporting each charity in a number of different ways through the month of December and throughout 2012.
