FOR IMMEDIATE RELEASE

### Data#3 Opens New Office in Victoria

**October 18, 2012; Melbourne, Australia:** Data#3 Limited, one of Australia's leading Information and Communications Technology companies today opened its new Melbourne office in Southbank.

Entering into a seven year lease at 55 Southbank Boulevard, the new office showcases the mobile and modern working environment Data#3 has previously implemented in the Brisbane and Sydney offices.

Featuring state-of-the-art customer facilities, videoconferencing and mobile printing, the modern design (an open environment with no dedicated offices) reflects the way people work with technology. The new location provides Data#3 staff with outstanding facilities to better serve its customers and technology partners.

The office was officially opened by Victorian Technology Minister Gordon Rich-Phillips, who said that the Victorian Government welcomed further growth by Data#3 in Victoria.

Data#3's Managing Director, John Grant said that relocation from the former Hawthorn premises to Southbank is a critical step for Data#3's continued growth in Victoria.

"We're now a major IT solutions provider to the Victorian private and public sectors. The new Southbank location puts us closer to our customers and partners.

"Our new office provides a welcoming and contemporary space where best-of-breed technology integrates with the way our people work to improve their productivity and serve our customers better.

"Our confidence in making this considerable investment is underpinned by the positive support we have received from our customers, partners and the Victorian Government," commented Grant.

In November 2011, Data#3 officially opened its new Integration Centre in Braeside. The two new facilities in Victoria further strengthen Data#3's market position in Victoria and across the country.

**The Data#3 Melbourne Office is now located at: Level 4, 55 Southbank Boulevard, Southbank, VIC 3006.**
